

List of items non-compliant to MII provisions as per RFPs published by NSIC on CPP Portal for supply & distribution of toolkits under PM Vishwakarma Scheme

NSIC has issued Requests for Proposals (RFPs) on CPP Portal regarding 18 trades to select vendors to supply tool kits under PM Vishwakarma. Further, a pre-bid meeting was conducted on 12th March 2024 at New Delhi. During the process, various queries received including consultations with various vendors revealed that there are 12 items (**Table I**) covered under numerous trades that are currently not manufactured domestically. In light of this, NSIC is publishing a comprehensive list of these items. This is done in order to solicit feedback on whether these items are currently being made domestically, in accordance with the Make in India guidelines issued by the DPIIT.

Manufacturers of these specific items or tools are invited to share their comments and observations on the matter. Feedback should be sent to the NSIC, using the format provided in **Table II**. All comments should be sent via email to procurement@nsic.co.in and submissions must be received no later than 12:00 Noon on the 18th of March, 2024.
