

India-Taiwan SMEs Webinar 2025

(India-Taiwan Collaboration on Smart Manufacturing and AI Applications)

🌐 As global manufacturing advances toward intelligent automation and AI-driven precision, India and Taiwan present complementary strengths in smart manufacturing. India, among the world's top ten machine tool markets, is expanding its industrial capacity under Make in India, Digital India, and Skill India initiatives.

Taiwan, known for its precision machinery, CNC systems, and AI-enabled manufacturing solutions, continues to enhance productivity and competitiveness worldwide. The India-Taiwan Smart Manufacturing × AI × Industrial Collaboration Forum will bring together policymakers, industry associations, and business leaders to explore bilateral opportunities in policy, technology, and market development. We warmly invite professionals and enterprises to join us in shaping the next phase of India-Taiwan industrial cooperation.

 **Date & Time: Friday, November 14, 2025 | 11:30AM–1:10PM (IST)**

 **Venue: Online via Webex (link will be provided before the event)**
