Preface

Since its establishment in 1965, NSIC Technical Services Centre, Rajkot has been working to provide Necessary facilities to its trainees to acquire and enhance their skills through its skill oriented Courses. By providing training on demand driven and industry oriented courses, its main focus has always been to give maximum exposure to its trainee through campus interview which it keep conducting in NTSC Rajkot premises. In its endeavor, a Job Fair was held on March 30th 2016. The event was concluded on a positive note with an over whelming response from the trainees as well as companies in terms of participation. Taking inspiration from the stupendous success of this event, NTSC will be organising many such events in the near future.

"Big goal requires small trainings"

*You should always equip
Yourself training and
Sharpening your skills
All the Time.*

ABOUT NSIC

Also course content are carefully designed in consultation with various representatives of various industry associations to meet the need of industry. The curriculum of each training programme is defined in such a way so as to give maximum practical exposure through practical training to the trainees.

**STRENGTH
IS A SKILL**

Jobmela at NTSC Rajkot

NSIC-Technical Services Centre, Rajkot is one of the leading technical training Institute in Saurashtra Region of Gujarat State.

In our pursuit to aid, counsel, assist, finance, protect and promote the interests of “micro & small enterprises in India” and to provide the trainees a platform to showcase their technical skills and expertise acquired during the training at this centre, a Job Fair was organized on 30th of March 2016 , Wednesday from 10 AM to 2.00 PM at NTSC-Rajkot premises.

A job fair is an event at which people looking for a job can meet possible employers. Job seekers use this opportunity to meet with them and attempt to stand out from other people and get an overview of what it’s like to work for a company or a sector that seem interesting to them.

This is also an opportunity for companies to meet with students and talk to them about their expectations from them as students and answer their potential questions such as the degree or work experience needed.

“For many, the Job fair can be an initial screen of talent and numerous employers will decide to offer first round interviews based on those brief interactions at a Job fair table.”

Suggestions & feedback from a participated company representatives:

"Job Fair proved to be a great hub of opportunities not only for students; it was indeed a discovery hub for the participating companies as well. Here are some of the responses which NSIC Technical Services Centre, Rajkot received from the participating companies in terms of their experience in witnessing this event."

Summary of Jobmela March-2016:

A total of 30 number of companies were intimated and sent invitation to participate in the job fair, out of them 18 companies responded back. Almost all companies gave a positive response, but due to their pre-scheduled engagements, they expressed their inability to turnout at the job fair. A total of 14 companies came to participate in this job Fair and conducted the first level scrutiny and preliminary round of selection for the candidates attended the job fair.

“Around 95 job aspirants attended the job fair and submitted their resumes to participated companies and actively participated in the selection process and 37 number of trainees are selected for next level of interview and companies invited them at company site.”
